Responsive multiplatform redesign (Mobile, Tablet and Desktop version) Turn the old Desktop Site in the new multiplatform design (Mobile, Tablet and Desktop version).

HMP Communications LLC (HMP) is the authoritative source for comprehensive information and education servicing health care professionals. These sites are just an little example of all launches I made. I did a responsive multiplatform redesign (Mobile, Tablet and Desktop version) of all of them.

Marketing Group

- <http://www.luxurypools.com> – The Premiere outdoor living publication
 - Built and redesigned several features present in the website
- <http://bradfordwhite.com> - **Bradford White is one of the most technologically advanced manufacturers of water heating**, space heating, combination heating and water storage products in the world
 - Planned, created, launched, and managed the site. **I moved the content from an old asp 3.0 website to Drupal 7 from ground up.**
- <http://www.laars.com>
 - Built and redesigned several features present in the website
- <https://www.directenergy.com>
 - Responsive design
 - several features present in the website
 - This is a multisite platform: I managed all of them
